

GLIDING PATIO DOORS

Andersen® 100 Series gliding patio doors are made with our, revolutionary Fibrex® composite material to give you a patio door that is durable, environmentally smart, and energy efficient. 100 Series products are available in deep, rich exterior colors that are low-maintenance and compliment virtually any architectural style. Featuring smooth gliding motion on easily adjustable rollers as well as a multi-point locking system for added security, 100 Series patio doors are a quality alternative to vinyl.

DURABLE

- Virtually maintenance-free
- Rigorously tested to deliver years* of smooth, reliable operation
- Fibrex material construction provides long-lasting performance
- Durable, low-maintenance finish won't fade, flake, blister, chalk or peel*
- Fibrex material is twice as stable and rigid as vinyl

ENERGY EFFICIENT

- Weather-resistant construction for greater comfort and energy efficiency
- Weatherstripping is designed to seal out drafts, wind and water
- Fibrex material blocks thermal transfer nearly 700 times better than aluminum
- A variety of Low-E® glass options are available to control heating and cooling costs in any climate
- Many 100 Series Gliding Patio Doors have options that achieve ENERGY STAR® version 6.0 certifications in all 50 states**

BEAUTIFUL

- Clean, attractive corner seams
- Six exterior color options
- Attractive matte finish interiors available in White or Sandtone
- Add style with grilles or patterned glass

**Visit andersenwindows.com to verify that the product and glass type are ENERGY STAR certified in your area. "ENERGY STAR" is a registered trademark of the U.S. Environmental Protection Agency.

100 SERIES GLIDING PATIO DOORS

Fibrex® material combines the strength and durability of wood with the low-maintenance of vinyl. The wood fibers are reclaimed from our own factories, which makes this product sustainable and environmentally responsible.

GLASS OPTIONS

- Low-E glass
- Low-E glass with HeatLock™ technology
- Low-E SmartSun™ glass
- Low-E SmartSun™ glass with HeatLock™ technology
- Tempered glass and other glass options are available. Contact your Andersen dealer.

PATTERNED GLASS

Ideal for letting light into the home while obscuring vision. Available in four attractive patterns.

1-3/8 inch Flange Setback, 1 inch Flange Setback with Stucco Key or Replacement Configuration.

ADDITIONAL FEATURES

- Easily adjustable rollers for a smooth gliding motion.
- Multi-point locking system for added security.

INTERIOR OPTIONS

HARDWARE FINISHES

HARDWARE

Tulsa hardware exterior handles match the door's exterior color, while interior handles are white or sandtone to match the interior. Afton hardware has the same finish inside and out, and is available in six finishes.

GRILLES

- Finelight™ Grilles-between-the-glass
- Keeps glass easy to clean
- Wide variety of patterns, including Specified Equal Light
- Two-sided color scheme matches both interior and exterior

Finelight™ grilles-between-the-glass have an elegant, sculpted profile, plus they offer a **two-sided color scheme**, allowing you to have grilles that match your interior and exterior color choice.

Printing limitations prevent exact color and finish duplication. See your Andersen dealer for actual finish samples.
