

## Awning Windows

Andersen® A-Series awning windows provide the contemporary operation of an awning with matching site lines to all A-Series windows, including a tall bottom rail, coordinating hardware and the look of mortise-and-tenon joints. A-Series awning windows are available with all of our energy-efficient glass options. Their exteriors are virtually maintenance-free and a sophisticated hardware mechanism allows for easy operation from inside your home.

### DURABLE

- Virtually maintenance-free
- Exterior finish never needs painting and won't flake, rot, blister, peel or corrode\*
- Exteriors are protected by a Fibrex material and fiberglass to protect against the elements

### ENERGY-EFFICIENT

- Weather-resistant construction for greater comfort and energy efficiency
- Weatherstripping is designed to seal out drafts, wind and water
- Many A-Series awning windows have options that achieve ENERGY STAR® Version 6.0 certifications in all 50 states†

### BEAUTIFUL

- Eleven exterior color options and six wood species, three painted and six finished interior options
- Extensive hardware selection, grilles, between-the-glass art glass or patterned glass

\* Actual wood is sapele, a non-endangered species of mahogany, grown in Africa, with color and characteristics of American mahoganies.

Printing limitations prevent exact duplication of colors and replication of finishes. See your Andersen supplier for actual color and finish samples. Naturally occurring variations in grain, color and texture of wood make each window one of a kind. All wood interiors are unfinished unless a painted interior is specified.
